

E-mails are spied on dangerously fast

## Encrypt your e-mails with IncaMail

Swiss Post provides a solution with which you can send confidential documents quickly, verifiably and cost-effectively: via encrypted e-mail with IncaMail.

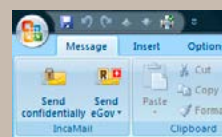

### How do you communicate?

### More safety thanks to IncaMail

- **Normal e-mails are unprotected**  
E-mails can be read as easily as a postcard – an Internet criminal needs only minutes to crack an e-mail.
- **Rising Internet crime**  
Industrial spies and state secret services scan, store and read your e-mails systematically. Internet criminals change, delete and intercept e-mails.
- **Negligence is punishable**  
When sending confidential or sensitive information negligently by e-mail there is the threat of indemnity claims, fines, imprisonment, disciplinary punishment and damaged reputation.

### What can IncaMail do?

With the click of a mouse you send confidential documents as securely as by letter post.

### Your advantages with IncaMail

#### Simple

- Encrypt and send e-mails at the push of a button
- Every e-mail address worldwide can be reached without installation
- Can be integrated into usual IT environment like Outlook or common business software

#### Unique

- Data is not stored and can therefore not be viewed by third parties
- Patented SAFE technology (**S**ecure **A**ttached **F**ile **E**ncryption)

#### Approved

- IncaMail is officially approved as a secure delivery platform by the Swiss Federal Department of Finance

#### Verifiable

- Dispatch and receipt are documented by Swiss Post and can be verified at any time

## Possible uses of IncaMail

	Electronic dispatch of <b>confidential data (offers, contracts, etc.)</b>
	Electronic dispatch of <b>pay slips</b>
	Electronic dispatch of <b>pay slips/statements including account statements</b>
	Electronic <b>communication with authorities</b>

## What does IncaMail cost me?

### Private customers/one-person businesses

Use IncaMail Webmail and pay individually per e-mail from EUR –.40 or an annual flat rate of EUR 25.–.

### Business customers

Integrate IncaMail into your existing IT environment (Outlook, Lotus Notes, GroupWise, Abacus, Soreco, WinBIZ, SAP, Microsoft Dynamics, Sage and more).

Benefit from low initial costs from EUR 320.– to EUR 1,280.– (depending on company size) and pay from EUR –.33 per e-mail or per sender an annual flat rate from EUR 99.– (discount according to quantity).
